

Aravind V

Product-focused UX Designer with **5+ years** of experience creating intuitive digital experiences that solve complex user problems. Skilled in defining UX strategies, influencing stakeholders, and delivering business impact.

WORK EXPERIENCE

Walmart - UX Designer III

May 2022 - Present

Owned the end-to-end product design life cycle for **18+ products** across enterprise and customer-facing experiences, partnering with cross-functional teams to deliver scalable solutions for **30K+ users**.

- Built enterprise finance/tax platforms: **Tax One (AI-powered end-to-end tax system)** streamlining compliance and audits across 10K+ stores, reducing cycle time by 30%
- Designed **Agent Accelerator**, an AI-powered support experience enabling agents to resolve associate and customer queries through guided workflows and intelligent assistance.
- Designed **Global Training platform** for tech **25K+ associates** across globally to track their learnings and skills.
- Designed **Finance Forecasting Platform, Omni Allocation Engine, and iCatalogue**, simplifying workflows and improving task efficiency and enabling faster decision-making for associates.
- Designed **Vision.AI**, an AI-powered survey experience for customers and associates, increasing survey response rates by **12–15%**.
- Led product discovery, UX strategy, and interaction design for **Approval Hub**, simplifying multi-level approval workflows and improving visibility for enterprise stakeholders.

Tekion - Product Designer

June 2021 - April 2022

- Designed a responsive **Learning portal for Tekion**, enhancing onboarding and reducing time to competency for new users.
- Led design and research for **Query Runner with Database Approval Management**, streamlining internal developer workflows.
